

SMARTOUCH WEBSITE CONTENT EXTRACTION

Reference document for rebuilding <https://www.smartouch.com.my>

Snapshot date: 9 June 2026

Prepared from publicly accessible website pages and navigation links.
Sensitive public financial details are flagged and redacted in this rebuild reference.

Contents

1. Scope and Coverage
2. Company Overview, Mission and Tagline
3. Homepage Content and Layout
4. Navigation Menu Structure and Links
5. Products and Services
6. Pricing Snapshot
7. Calls to Action and Interactive Elements
8. Contact Information and Office Location
9. Page Layout Patterns
10. Rebuild Cleanup Checklist
11. URL Inventory and Extraction Status
12. Source Pages

Note: This is a structured rebuild reference rather than a visual clone. It consolidates duplicated and overlapping pages while preserving the content themes, navigation labels, links, CTAs, pricing and operational notes found on the public site.

1. Scope and Coverage

Purpose: extract and organize the publicly visible Smart Touch website content so it can be used as a reference when rebuilding the site. The review covers the homepage, company profile, contact page, pricing page, top-level navigation, product/service pages, security pages, selected category archives and project-reference galleries.

- Extraction focus: company overview, mission, tagline, navigation links, products, services, feature themes, benefits, pricing, page sections, CTAs and interactive elements.
- Coverage method: inspect the live homepage navigation, follow publicly exposed links, review parsed page content and identify fetch failures or duplicated routes.
- Important limitation: some menu links timed out or returned fetch errors. Those URLs are retained in the inventory for manual checking during migration.
- Privacy handling: public bank-account numbers shown on the Contact Us page are not reproduced in this PDF. Their presence is flagged as a rebuild risk.

2. Company Overview, Mission and Tagline

Topic	Extracted rebuild reference
Company positioning	Connected, intelligent ecosystems for workforce and operational management; over 20 years of experience across Malaysia and Singapore.
Mission	Solve real-world HR problems with smart, scalable technology.
Origin story	Founded in 2004 by Kenny Choy (子淳); page also references a first payroll and attendance project in 1995 for more than 1,000 employees.
PAL foundation	Payroll, Attendance, Leave and Claims modules.
SmartGoGo	Mobile-first workforce-management app launched in 2020.
BAS	Biometric Authentication System introduced in 2009; ties modules together with face recognition and real-time monitoring.
E-Portal	Central web portal for self-service, approvals, dashboards, alerts and role-based access.
Philosophy	Trust, Innovation, Integration.
Tagline	"Smart Touch Technology — PAL is always with you. And so are we."

Recommended concise company overview for the rebuilt site

Smart Touch Technology develops integrated HR, payroll, attendance, biometric access and operational-management systems for businesses in Malaysia and Singapore. Its platform connects workforce administration with physical access, mobile self-service and operational tools such as visitor, canteen and dormitory management.

3. Homepage Content and Layout

The current homepage presents Smart Touch as an integrated workforce-automation provider. It combines payroll and HRMS content with biometric access-control and operational-management systems.

Homepage section	Content and rebuild notes
Header navigation	Large multi-level menu with Solution, Time Clock, Product, Project Reference, About Us, Contact Us, Blog and Login. The rendered extraction shows the navigation duplicated in the HTML output.
Hero section	Headline: "Integrated Payroll, HRMS & Time Attendance Software — Malaysia's Complete Workforce Automation". Supporting text positions cloud payroll, statutory compliance, biometric attendance, leave/shift management and visitor access control in one platform.
Primary CTAs	Book a Demo; Start Your Payroll Automation.
Trust signals	"Trusted by 2500+ Factories, Offices, and Condominiums in Malaysia" with a client-logo strip.
Core HRMS Solution	Payroll System Malaysia; Attendance & Time Management; SmartGoGo Mobile HR App.
Extended HRMS Solutions	Visitor Management; Canteen Subsidy & Meal Management; Dormitory & Hostel Management.
Biometric & Security Solutions	Biometric face-recognition devices; barrier solutions; door access control.
Problem/solution narrative	Disconnected HR software problem; intelligent hardware-linked attendance; LHDN-compliant payroll automation; advanced security and access control; mobile e-leave and e-claim.
Industry sections	Manufacturing & Factories; Construction & Engineering; Large Enterprises.
What We Do	Biometric face recognition, time attendance/payroll, biometric fingerprint, access control and payroll software cards.
Why Smart Touch	24x7 Work Culture; Professional Team; Personalized Approach; Regular Updates; We Love What We Do; High Quality Deliverables.
FAQ	EPF-rate compliance; Excel import; custom OT rates.
Footer	Top HRMS Solution links, payroll-information links, top menu, contact details, time-clock links, developer/theme credit and WhatsApp widget.

Homepage hero copy captured from the live page

Headline: Integrated Payroll, HRMS & Time Attendance Software - Malaysia's Complete Workforce Automation

Supporting message: Cloud-based payroll system with automated statutory compliance (EPF, SOCSO, PCB), biometric time attendance, leave and shift management, and visitor access control - all in one platform.

Homepage trust signal

Trusted by 2500+ Factories, Offices, and Condominiums in Malaysia. The homepage displays a strip of client logos, including brands such as Westlite, Gardenia, Coca-Cola, Samsung, Volvo, Levi's, MMHE and others.

4. Navigation Menu Structure and Links

The public header is extensive and includes overlapping menu branches. For the rebuild, keep the useful categories but simplify the hierarchy. The following table preserves the labels and destinations exposed by the current site.

Menu label	URL	Notes
Solution	https://www.smarttouch.com.my/	Top-level container

Menu label	URL	Notes
Construction	https://www.smartouch.com.my/construction/	Menu branch; page timed out during extraction
BAS	https://www.smartouch.com.my/bas/	Construction sub-page; page timed out during extraction
VMS (mobile & kiosk)	https://www.smartouch.com.my/vms-mobile-kiosk/	Current kiosk and mobile visitor-management landing page
Our Project Reference	https://www.smartouch.com.my/project-reference/	Gallery/reference branch
Long Range RFID	https://www.smartouch.com.my/long-range-rfid-content/	RFID solution landing page
SmartHR		Menu group
SmartGOGO	https://www.smartouch.com.my/smartgogo/	Mobile HR app
SmartGoGo Leave	https://www.smartouch.com.my/smartgogo-leave/	Mobile leave feature page
SmartPay	https://www.smartouch.com.my/payroll-malaysia/	Payroll system page
Smartime	https://www.smartouch.com.my/smartime-time-system/	Time management page
SmartLeave	https://www.smartouch.com.my/smartleave-leave-management-system/	Leave management page
SmartClaim	https://www.smartouch.com.my/smartclaim/	Claim page; fetch error during extraction
Payslip System	https://www.smartouch.com.my/payslip-template/	Payslip content page
Dormitory System	https://www.smartouch.com.my/dormitory-system/	Dormitory and hostel management

5. Products and Services

This section consolidates product content from the homepage, About Us page and linked solution pages. Where the site contains multiple pages for the same product, the descriptions are merged into one rebuild reference.

SmartPAL Human Resources Systems

Current/related URL: <https://www.smartouch.com.my/smartpal/>

Description: Integrated HRMS bundle built around Payroll, Attendance, Leave and Claims. The page positions SmartPAL as a cloud-based, customizable HR solution for Malaysian businesses.

Key features:

- SmartPay payroll
- Smartime time management
- SmartLeave leave management
- SmartClaim e-claim
- Compliance-ready payroll reports
- Biometric attendance integration
- Remote access to HR information

Primary benefit: Streamline HR tasks, reduce administrative workload, support compliance and allow modular growth.

SmartGoGo Mobile HR App

Current/related URL: <https://www.smartouch.com.my/smartgogo/>

Description: Mobile-first HR application for payroll, attendance, leave and claims. The page emphasizes local SME use, mobile access and reduced reliance on spreadsheets.

Key features:

- GPS tagging
- Mobile biometric authentication
- Clock-in/out from mobile devices
- E-payslips
- E-leave approvals
- Payroll integration
- Shift and allowance customization

Primary benefit: Improve accuracy, allow field-team clocking and give employees self-service access from smartphones.

Payroll System Malaysia / SmartPay

Current/related URL: <https://www.smarttouch.com.my/payroll-malaysia/>

Description: Payroll module covering salary processing, statutory rules and online salary payment. Homepage messaging highlights EPF, SOCSO, EIS and PCB compliance, bonus, overtime and allowance handling.

Key features:

- Monthly and semi-monthly payroll
- Bonus and advance pay
- Statutory calculations
- Bank-payment support
- Attendance-linked payroll
- Payslip generation

Primary benefit: Reduce manual calculation errors and improve statutory compliance.

Smartime / Time Attendance System

Current/related URL: <https://www.smarttouch.com.my/smartime-time-system/>

Description: Time-management solution integrated with biometric devices, cards and mobile clocking. The legacy TMS page describes a web-based system that connects with access control and payroll.

Key features:

- TIME IN / TIME OUT capture
- Fingerprint, face, card and mobile inputs
- Overtime and lateness calculations
- Shift support
- Timesheets and reports
- Access-control integration

Primary benefit: Automate attendance collection and reduce manual uploads.

SmartLeave / E-Leave

Current/related URL: <https://www.smarttouch.com.my/smartleave-leave-management-system/>

Description: Leave-management workflow for online leave applications, approvals and balance tracking.

Key features:

- Online application
- Approval workflow
- Leave-balance tracking
- Payroll synchronization
- Mobile access through SmartGoGo

Primary benefit: Reduce paper forms and keep leave records synchronized with payroll.

SmartClaim E-Claim

Current/related URL: <https://www.smarttouch.com.my/smartclaim/>

Description: Claims module referenced in the menu, SmartPAL bundle and About Us page. The About page describes end-to-end expense submission, approval and payroll linkage.

Key features:

- Expense submission
- Approval routing

- Payroll linkage
- Mobile workflow

Primary benefit: Speed up expense administration and consolidate employee transactions.

Visitor Management System (VMS)

Current/related URL: <https://www.smartouch.com.my/vms-visitor-management-system/>

Description: Web-based visitor tracking replacing paper logs. Separate kiosk/mobile page promotes self-service kiosks and flexible mobile visitor handling.

Key features:

- Pre-registration
- Visitor registration
- Photo capture
- Approval
- Check-in and check-out
- QR-code check-in
- Host notifications
- Visitor-pass issuance
- Access-control integration
- Compliance audit reports

Primary benefit: Improve security, visitor experience, traceability and professional first impressions.

Canteen Management System

Current/related URL: <https://www.smartouch.com.my/canteen-management-system-2/>

Description: Workplace canteen solution for meal planning, authentication, entitlements and reporting.

Key features:

- Digital meal ordering
- Face, fingerprint and access-card authentication
- Cashless payment options
- Meal entitlement rules
- Shift/grade/department limits
- Consumption analytics
- Food-waste reduction

Primary benefit: Control subsidy leakage, reduce waste and provide a smoother employee dining experience.

Dormitory and Hostel Management

Current/related URL: <https://www.smartouch.com.my/dormitory-system/>

Description: Digital dormitory platform for hostels, worker accommodation and property operators. The dashboard includes occupancy, reservations and document-expiry alerts.

Key features:

- Resident profiles and documents
- Stay history and activity logs
- Graphical bed booking
- Occupied/vacant/reserved bed counts
- Nationality charts
- Work-permit and passport-expiry alerts
- Dormitory reports

Primary benefit: Improve occupancy visibility, compliance monitoring and resident administration.

Face Recognition System

Current/related URL: <https://www.smartouch.com.my/face-recognition-system-2/>

Description: AI and biometric identification page describing touchless face verification for attendance, access control, security, visitor management and worksite compliance.

Key features:

- Image capture
- Face detection
- Feature extraction
- Matching and verification
- Logging and reporting
- Touchless authentication
- HRMS and VMS integration

Primary benefit: Reduce buddy punching and provide faster, contactless identity checks.

Door Access Control / Smartface

Current/related URL: <https://www.smarttouch.com.my/door-access-control-system-331/>

Description: Access-control page describing credentials, readers, controllers and locks/barriers used to manage entry to buildings and zones.

Key features:

- ID cards and proximity cards
- Fingerprint and face credentials
- Readers and controllers
- IP access-control software
- Maglocks
- Turnstiles
- Pedestrian gate access

Primary benefit: Centralize access rights and secure restricted zones.

ESD Tripod Turnstile

Current/related URL: <https://www.smarttouch.com.my/turnstile-gate-with-esd-access-control-system/>

Description: Specialized anti-static access-control turnstile for production environments. The page describes integrated ESD testing, monitoring, alarms and channel management.

Key features:

- ESD testing area monitoring
- UHF card reading
- Remote alarm
- Voice prompts
- Gate monitoring
- Moisture-proof and anti-interference design

Primary benefit: Support safe-production access rules and management visibility.

Long-Range RFID

Current/related URL: <https://www.smarttouch.com.my/long-range-rfid-content/>

Description: RFID solution for access control, tracking and parking management. The page explains LF, HF and UHF ranges and notes that UHF can support long-distance reads.

Key features:

- Contactless tracking
- Vehicle identification
- Parking access
- Asset tracking
- UHF long-range reading
- Industrial automation

Primary benefit: Improve contactless access and automated identification.

Guard Patrolling System

Current/related URL: <https://www.smarttouch.com.my/guard-patrol-system/>

Description: Security guard-tour platform that verifies patrol rounds using checkpoints, mobile devices, GPS and cloud dashboards.

Key features:

- RFID/NFC/QR checkpoints
- Mobile app or scanner
- GPS tracking
- Cloud dashboard
- Real-time verification
- Patrol record storage

Primary benefit: Replace paper logs with verifiable security operations.

CCTV / IP Camera

Current/related URL: <https://www.smartouch.com.my/cctv-camera-malaysia/>

Description: Security-camera solution page promoting HDCVI, CCTV and IP-camera packages and remote monitoring options.

Key features:

- 2MP surveillance package shown on pricing page
- Night vision
- Scheduled recording
- Remote/mobile viewing options
- Installation packages

Primary benefit: Increase property monitoring and security visibility.

Alarm Systems

Current/related URL: <https://www.smartouch.com.my/alarm-system/>

Description: Intrusion-detection offering for residential, factory and industrial settings. The page describes notifications and links to authorities through communicators or transmitters.

Key features:

- Intrusion alerts
- Interior and perimeter protection
- Telephone communicator
- Radio transmitter
- Configurable security features

Primary benefit: Notify users of unauthorized access and improve response readiness.

Access Card and Duplication Services

Current/related URL: <https://www.smartouch.com.my/access-card-duplication/>

Description: Legacy retail/service content for compatible proximity cards and access-card duplication.

Key features:

- EM / 125 kHz cards
- EM and Mifare duplication options
- RFID/proximity credentials

Primary benefit: Support replacement credentials and access-card deployments.

Project Reference Galleries

Current/related URL: <https://www.smartouch.com.my/project-reference/>

Description: Gallery pages for tripod turnstile gates, door-access control and long-range RFID; these contain media placeholders and short captions.

Key features:

- Photo and video sections
- Project-category captions
- View-all actions

Primary benefit: Provide visual proof and examples for sales pages.

6. Pricing Snapshot

The public site includes a Price page with cash-and-carry items and packages, while the SmartPAL page displays per-module active-headcount rates. These values should be validated before publishing the rebuilt site because pricing may change and enterprise projects may require quotation-based pricing.

Item	Publicly displayed price	Notes
SmartPAL modules	RM 3 / module / active headcount	SmartPay, Smartime, SmartLeave and SmartClaim each show this rate on the SmartPAL page.
Pre-Seal Payslip Standard Printing	MYR 199	Standard salary-detail printing stationery; cash and carry.
Mobile App Attendance Package	MYR 4.00	Mobile attendance access; cash and carry.
Payroll System Advanced Package	MYR 599	Payroll features including multiple pay cycles and statutory rules.
Cloud Attendance with Fingerprint	MYR 899	Fingerprint attendance and basic OT/lateness calculations.
CCTV Surveillance Package	MYR 1,980	2MP camera package with secured connection, night vision and scheduled recording.
Compatible Touch and Go Card	MYR 1.98	Compatible proximity card, EM format / 125 kHz.
Duplicate Access Card Service	MYR 29.98	Clone/duplicate access card service for EM/Mifare cards.
Guard Patrolling System Package	MYR 1,280	Scanner and simple software for patrol records.
Fingerprint Access Control Package	MYR 1,380	Fingerprint-based access control and software user management.
RFID Card Access Control Package	MYR 480	RFID/proximity-card access-control package.
Alarm System package	Starts from RM 2,200	Shown on alarm-system page.
CCTV package	Starts from RM 1,980	Shown on CCTV page.

7. Calls to Action and Interactive Elements

Call-to-action messages and buttons

CTA text	Where used	Purpose / destination
Book a Demo	Homepage hero and FAQ section	Links to Contact Us.
Start Your Payroll Automation	Homepage hero	Links to SmartPAL.
Click here	Homepage solution cards	Links to the corresponding solution page.
Download Brochure	VMS, SmartPAL, SmartGoGo, Canteen and Guard Patrol pages	Downloadable brochure actions; verify each file during rebuild.
Contact Us	Canteen and RFID pages	Leads users to the contact page.
Call Us Now!	Mobile attendance and security pages	Lead-generation link to Contact Us.

CTA text	Where used	Purpose / destination
MORE INFO	Pricing cards	Links from each retail/package card to a related page.
WhatsApp us	Persistent footer/widget text	Interactive WhatsApp contact widget.
View all	Project-reference gallery pages	Opens full photo/video galleries.

Forms and interactive elements

Element	Observation
Contact conversion	Book a Demo button links to Contact Us.
Direct messaging	Persistent "WhatsApp us" widget/text appears in the footer extraction.
Brochure downloads	Brochure links appear on multiple product pages.
Gallery browsing	Project reference pages offer "View all" actions for photo and video media.
Pricing-card navigation	Each price card has a MORE INFO action.
Portal access	Header includes a Login link.
Forms	No visible HTML form fields were exposed in the parsed public Contact Us page. The rebuild should confirm whether a contact form, WhatsApp integration or CRM form is required.
Contact QR	Contact page asks visitors to scan a QR code to save the contact.

8. Contact Information and Office Location

The public website currently shows the following business contact information:

Field	Publicly displayed content
Office address	36-02 & 36-03, Jalan Permas 10, Bandar Baru Permas Jaya, 81750 Masai, Johor, Malaysia.
Footer contact	+607-388 9903 / +6011-5354 9903
Contact-page phone list	+607-388 9903 / +6011-53549903 / +607-388 3686 / +07-388 1124
Fax	+607-388 0628
Sales email	sales@smartouch.com.my
Named enquiry contact	Mr Kenny - 012-7883383
Website	http://www.smartouch.com.my
Social link	Official Facebook link appears in footer

Sensitive public content warning

The current Contact Us page includes bank-account sections for Smart Touch Technology Sdn Bhd, E Software MSC Sdn Bhd and an individual, plus GST registration details. Account numbers are intentionally redacted from this report. For a rebuilt public website, remove bank-account details or move payment instructions behind an authenticated or controlled process.

9. Page Layout Patterns

Page type	Observed structure
Home page	Marketing-led landing page with hero, CTAs, trust logos, solution cards, narrative benefits, industry targeting, FAQ and footer link clusters.
About Us	Long-form company story page using chronological narrative, product-suite explanations and a closing tagline.
Product landing pages	Usually contain an H1, short introduction, brochure/contact CTA, illustrations/screenshots, feature blocks and footer link clusters.
Legacy SEO pages	Often use a directory/table-of-contents pattern with "Description", "Benefits", "Packages", "Pricing", "How to Purchase", "Contact Us" and related-content anchors.
Gallery pages	Project-reference pages use media headings, photo/video sections and "View all" actions.
Pricing page	Retail-card list with package name, price, 2-4 selling points, "CASH AND CARRY" and "MORE INFO".
Footer	Repeated across pages with top HRMS links, payroll-information links, top menu, contact details, time-clock links and WhatsApp text.

10. Rebuild Cleanup Checklist

- **Public financial information:** The Contact Us page currently includes company and personal bank-account sections. This report intentionally redacts account numbers. Remove or protect this content in the rebuilt public website unless there is a documented business requirement.
- **Duplicate navigation markup:** The extracted page output contains duplicated menu trees. Rebuild with one accessible header navigation and a separate simplified mobile menu.
- **Inconsistent naming:** Examples: SmartGOGO vs SmartGoGo, Smart PAL vs SmartPAL, "Domitory" spelling, VMS duplicate pages and multiple access-control pages.
- **Legacy content overlap:** Several pages are older SEO-style articles while newer product pages exist for the same solution. Consolidate to one authoritative page per product and redirect legacy URLs.
- **Fetch failures and timeouts:** Some links returned timeout, fetch or 406-style errors during extraction. Check availability, redirects and server rules before migration.
- **Pricing clarity:** Pricing page mixes cash-and-carry retail items, software packages and "per module / active headcount" pricing. Separate retail products, subscription software and quotation-based enterprise projects.
- **Contact consistency:** Footer contact and Contact Us page display different phone lists. Standardize one sales number, one support number and one WhatsApp number.
- **Content quality:** Some legacy text has grammar, spelling and capitalization issues. Rewrite before migration rather than copying verbatim.
- **Security and privacy:** Review public display of personal names, phone numbers, bank details, QR codes, downloads and login routes. Run a security review before launch.

Suggested simplified navigation for the rebuilt website

Top-level item	Recommended role
Home	Overview and primary conversion
Solutions	HRMS & Payroll; Attendance & SmartGoGo; Visitor Management; Canteen; Dormitory; Access Control; Construction & Contractor; Guard Patrol; RFID
Products	Software modules; biometric devices; barriers and turnstiles; security products
Industries	Factories; construction; offices; condominiums/dormitories
Project References	Case studies and galleries
Pricing	Clearly separate subscription software, retail hardware and request-a-quote projects
About Us	Story, mission, philosophy and tagline
Resources	Brochures, FAQs and selected articles
Contact / Book a Demo	Form, phone, WhatsApp and map
Login	Customer portal

11. URL Inventory and Extraction Status

The following inventory records the main public pages reviewed and the menu-linked pages that could not be fully fetched. Keep legacy URLs in a migration spreadsheet so redirects can be planned.

URL	Status
